## April Fool's Day Fails

1. Kansas DJs told their audience that the local water was contaminated and would cause sweating and skin wrinkling. The result was 150 urgent calls to the water department and 30 calls to 911.
2. Only a couple weeks into the job, a new employee thought it would be funny to call her manager and report the store was being robbed. Minutes later, she called to say “April Fools” but the police had already arrived, ending in her arrest.
3. The victim of an April Fool's prank was hospitalized when his butt got stuck to a toilet seat wrapped in adhesive. He had to leave the store with the seat attached and have it removed at the hospital. The prankster is still at large.
4. Hooters told staff that whoever sold the most beer on April 1<sup>st</sup> would win a brand new Toyota. The winner was brought to a parking lot and found a Star Wars toy Yoda doll instead of a car. The courts weren't amused and ruled in favor of the waitress ordering Hooters to pay up.

**PRANK SAFELY AND SMARTLY!**
