Message from the Founder – Leslie Kahn

Serving the nursing and healthcare community has always been my mission. Several years ago as a Registered Nurse, I decided to return to school to further my education. With a brand new bachelor in business management and over twenty-six years delivering hands-on care in multiple areas as a healthcare practitioner, I was given the opportunity to work for a national staffing company as a Recruiter.

That’s when I discovered my passion! I still had the ability to serve and help others in the health care industry, which ultimately leads to happy health care professionals providing quality patient care. I was thrilled to help my client organizations find the right person for the right position and to help fellow professionals obtain their ideal position. However, I realized that there was a niche that needed filled in the staffing industry. That niche was the realization that health care professionals, as well as their patients, need an ADVOCATE too! My dream of helping and serving others became a reality when I launched my own healthcare staffing firm Cirrus Consulting in 2003. For over a decade now Cirrus Consulting, through the grace of God, has helped thousands of health care professionals and client organizations make the perfect match.
